## Brain Science Speaker Series

**Candice Morey****Candice Morey, Journal of Cognition**

Editor-in-Chief

Digital Media Center Theatre  
November 19, 2018 - 03:00 pm**Abstract:**

LSU Multidisciplinary Institute for Neuroscience Discovery will host scientists who have made substantial contributions to the field of neuroscience to speak about their work on LSU's campus. Each speaker will give a presentation followed by a discussion panel with LSU faculty members.

**Speaker's Bio:**

Candice Morey is interested in understanding what limits memory for the immediate past, explaining why these lapses occur so universally, and discovering factors that can help mitigate immediate memory limits. She also advocates for improving the transparency of research so that all of the products of research – from stimuli, to data, to published conclusions – are maximally available to inform decision-making in academia and beyond. Materials supporting her research projects are available on my [Open Science Framework](#) page. Dr. Morey is currently the editor-in-chief of the Journal of Cognition and was the 2017 Psychonomic Society [Early Career Award](#) Winner.
